[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOV. 21.

EASTERN STATES.

The Russian Grand Duke.

NEW YORK, Nov. 19.—This morning, the Russian frigate *Svetland* arrived safely off the lightship, with the Grand Duke Alexis on board. She experienced strong head winds and heavy seas nearly the whole passage. The officer on duty made immediate inquiry whether other vessels of the Russian fleet had yet reached port, and when informed that they had immediately communicated the intelligence to those on board the *Svetland*. Loud cheering testified that the news of the safety of their companions had reached the ears of the crew of the flagship.

The Russian clipper *Abreck* came to the upper quarantine yesterday. The *Svetland* is to be completely inspected by the Health Officers.

It appears that the reception committee for the Grand Duke did not go to the lower bay in the steamer *Powell*, but met the Russian fleet under the escort of the American fleet.

The Grand Duke has accepted a public reception to-morrow, until which time he remains on board the *Svetland*.

The *Tribune* to-morrow will have a statement that Charles O'Conor is of the opinion that through a flaw in the indictment, Tweed will escape punishment.

Snow and Sleet.

OMAHA, Nov. 20.—The snow and sleet storm which commenced on Friday afternoon and continued until Sunday morning, extended over the whole country from the Rocky mountains to the Missouri river. Everything was covered with a coating of ice, causing the downfall of telegraph lines. The Union Pacific trains are snow-bound at different points between Omaha and Cheyenne. The express train due here on Saturday evening arrived about midnight on Sunday. The storm is reported as still more severe in southern and western Colorado.

Philadelphia News.

PHILADELPHIA, Nov. 20.—The jewelry store of S. S. Franks was robbed last night of $20,000 worth of watches. The burglar concealed himself in the upper part of the building during the day, and admitted his confederates during the night.

The health report for the week ending yesterday shows 133 deaths from small-pox—an increase of 32 over last week.

EASTERN STATES.

Resignation of Collector Murphy.

WASHINGTON, Nov. 20.—A correspondence between President Grant and Collector Murphy of New York, enclosing the resignation of the latter is published. Murphy refers to the persecutions to which he has been subjected, which, he says, for persistent misrepresentation and unrelenting vindictiveness have, fortunately, but few parallels in the history of political strifes. He says he has been sustained by a consciousness of his own rectitude, and that he has enjoyed uninterruptedly and still retains the confidence of the President undiminished by vituperation. For the manner in which the duties of his office have been performed, he refers with pleasure to the Secretary of the Treasury, and to figures of his records in the Treasury Department. He says, however, he is conscious that his continuance in office will be made a pretext and reason for assaults calculated to injure the President and the Republican party, and rather than incur such hazard he would relinquish the position. He concludes by referring to the gratifying result of the recent election in New York State.

The President in reply says it gives him great pleasure to bear testimony to the efficiency, honesty and zeal with which Murphy has administered his office; that while his peace of mind may be enhanced by leaving the office of Collector, he (the President) doubts whether such a course will be beneficial to the public service. Under his administration the revenues of the New York Custom House have been largely increased and the cost of collection greatly diminished, which facts are shown by the records of the Treasury Department. He says in conclusion: "You have had my unqualified confidence ever since you entered the office. That confidence is still unshaken. In accepting your resignation I desire to give you the fullest assurance of fact that whether you remain in or out office, time will convince the public of your entire innocence of the charge brought against you. With great respect, your obedient servant, U. S. GRANT."

In the United States Supreme Court this afternoon it was announced that court would adjourn until Monday, the 27th inst. Court will meet again December 4th, as required by law, to commence the regular term.

Captain John V. Fourney, Assistant Quartermaster, relieved from duty in the Department of New York, is ordered to the Military Division of the Pacific, to relieve Captain Charles W. Foster, Assistant Quartermaster, ordered to the Military Division of Missouri.

No information has yet been received by the Government officials when the Grand Duke Alexis will arrive here. Arrangements for his presentation to the President will be made by Secretary Fish and Minister Catacazy. There will be no formal speech-making, and no public display at the presentation, which will take place in the blue room at the White House. The President will be attended by the Cabinet and the Duke by his suite and Minister Catacazy, who will introduce him to the President and Cabinet. He will then be escorted to the red room and presented to Mrs. Grant.

Chester A. Arthur was appointed, this afternoon, Collector of Customs for the Port of New York, vice Murphy resigned.

There seems to be no doubt that the Pacific Coast Congressmen will move an inquiry into the management of Indian Affairs, in order to ascertain officially whether the peace policy has proved successful.

MEXICO.

A Revolution in Progress.

CITY OF MEXICO, Nov. 11.—A formidable revolution has taken place throughout the country, and a change in the existing government is expected. The Treasury is bankrupt and the people are going over to the revolutionists.

BY ATLANTIC CABLE.

Spanish Affairs.

MADRID, Nov. 18.—Movements of radical members of the Cortes have resulted in the defeat of the Ministry, as a Cabinet crisis has occurred. Friday's sittings of the Cortes were intensely exciting, and the session did not break up until 7 o'clock this morning. During the discussion upon a proposition to censure the Government, brought forward by the adherents of Zorilla, a counter motion was submitted by Senor Ochoa providing for granting of entire liberty to religious societies throughout Spain, and suppression of the provisional government. A motion was made to declare the sitting of the Cortes permanent. Discussion followed. The Government eventually demanded its objection as a Cabinet question. The opponents had a majority. Upon the division of the house the motion was found to be adopted by a vote of 173 to 115. Admiral Malcampo, President of the Council of State and head of the Ministry, at once mounted the tribune and read the royal decree prorogueing the sitting of the Cortes *sine die*.

The King to-day summoned to his presence the Presidents of portfolios for consultation as to the grave aspect of political affairs. It has since become known that the Ministry have resigned in a body. A belief is expressed in high circles that with some modifications they will continue in office.

English News.

LONDON, Nov. 20.—The first Roman Catholic mission dispatched from England to the United States sailed to-day. The party consists of four priests to labor exclusively among colored people. Previous to their departure Archbishop Manning addressed them. This mission had been established because England had originally brought slavery on America, and it was fitting that Englishmen should be the first to move for the amelioration of the newly emancipated slaves.

A large meeting attended by 4,000 people was held in Bristol last evening. Sir Charles W. Dilke addressed the assembly. There was much fighting during the meeting and the band was prevented playing the national anthem.

The London *Standard's* report of the suspension of negotiations between England and France for a modification of the commercial treaty is fully confirmed.

John Griffle, leader of the Total Abstinence Society of Brixham, publicly accuses the Queen of intoxication. The charge causes a great uproar, and the local authorities have already commenced legal proceedings against the author.

French Affairs.

PARIS, Nov. 19.—The *Constitutionnel* says the Duc de Grammont, French Ambassador to the Papal Court, had sent a telegram to Count de Remusat, Minister of Foreign Affairs, stating that the Pope expressed his intention of leaving Rome when the bill had been passed convening the Italian Parliament in the city.

Gambetta, Louis Blanc and Victor Hugo, have issued a card soliciting subscriptions for the relief of families of Communist prisoners.

The editor of the *Journal Pere du Chesne* has been courtmartialed.

It is expected that before the end of January, 1872, France will have ten army corps completely organized, fully supplied with arms and posted at the great military centers of the country.

The cause of the conflagration at Geneva is to be made the subject of strict investigation. Suspicion is directed against agents of the International Society.

Explosion in Germany.

FRANKFORT, Nov. 19.—This morning at the fortress of Ehrenbreitstein, opposite Coblentz, a can of cartridges in the military labratory ignited a quantity of ammunition and exploded. The building was badly shattered, three soldiers killed and many wounded. The immense magazine of the fortress, where a supply of powder is stored sufficient for a ten years' siege, escaped.

OREGON.

Rev. Gustavus Hines is said to be dangerously ill at Oregon City.

The *Statesman* says that the upper Wallamet is within a foot of being as low as at any time during summer.

The wife of Rev. L. T. Woodward, Presiding Elder of the M. E. Church for the Salem District, died on Sunday.

A gentleman who crossed the Blue mountains within the last few days reports that there was eighteen inches of snow on the summit. It had been deeper even than that, but was disappearing.

From the *Statesman*: Arthur W. Pressly, writing from Slate Creek, Josephine county, to a friend here, announces the late discovery of very rich placer mines about eight miles below there, down Rogue river. He says the only claim opened had been sold for two thousand dollars. Quite an excitement existed on account of the discovery, and forty claims had been taken up. It seems that the mines of Southern Oregon are bound to break out in a new spot once in a while.

NEWS CONDENSATIONS.

Hon. Benjamin Disraeli has been elected Rector of the University of Glasgow, defeating Mr. Ruskin, the well known author.

Fisk, Jr., has been placed under thirty thousand dollars bonds to answer a charge of perjury, preferred by his woman, Mansfield.

Peter B. Sweeny, Tammany thief, is arranging his affairs for an extended European tour, to remain abroad until after the Presidential election of 1872.

Thomas M. Norwood, of Savannah, a moderate Democrat, has been elected United States Senator for Georgia. He is said to be a man of ability and character.

The grand jury of Chicago have unanimously refused to find a bill of indictment against young Treat, who, while acting as a patrol, shot Colonel Grosvenor. So ends the effort of Governor Palmer.

Colonel John E. Smith, of the Fourteenth Infantry, has been requested by the President to go on a mission to the Apaches in Arizona, to see if he can accomplish anything in the peace line. A final proposal of peace is to be made, which, if not accepted, is to be followed by war.

It was stated a few days ago that Pension Agent Calhoun is a defaulter. But a later dispatch says that a most rigid examination of his accounts does not establish the charge. Calhoun asks to be allowed to close up his accounts, which he says will show a balance due him from the Government.

On the 16th snow fell all day at Philadelphia.

Several prominent Senators now at Washington are engaged in a movement having for its object the reorganization of the Joint Commission on Retrenchment. They assert that many millions can be saved by the Government by proper examination into several miscellaneous offices under Government control.

POLITICAL NOTES.

The Republicans elected six members of the Legislature in New York City at the late election. They had not had one from there for years.

Gen. Sigel ran for Secretary of State in New York in 1869, and received in New York City 36,897 votes. In the recent election he was candidate for Register and received in the city 80,811 votes, being a gain of 43,914 as compared with his vote in '69.

The Republican loss of Governor in New Jersey is universally attributed to the unpopularity of Cornelius Walsh, the candidate for that office. It was foretold in the Convention that nominated him that many would refuse to give him their votes. The Republicans have both branches of the Legislature.

Vice President Colfax has been again put to the necessity of writing privately to a prominent journalist to put down the oft-renewed story that he is to be used by certain politicians as the means of preventing the renomination of President Grant. The last reiteration of this scheme was put forth in such a manner as to justify what otherwise would have been needless, viz: A new expression of adhesion to his present determination to retire from public life and of devotion to President Grant.

A BEAUTIFUL ALLEGORY.—"Father," said a Persian monarch to the old man who, according to Oriental usage, bowed before the sovereign's throne, "pray be seated; I cannot receive homage from one bent with years, whose head is white with the frosts of age. And now, father," said the monarch, when the old man had taken the proffered seat; "tell me thine age; how many of the sun's revolutions hast thou counted?" "Sire," answered the old man, "I am but four years." "What!" interrupted the King, "fearest thou not to answer me falsely, or dost thou jest on the very brink of the tomb?" "I speak not falsely, sire," replied the aged man, "neither would I offer a foolish jest on a subject so solemn. Eighty long years have I wasted in folly and sinful pleasures, and in amassing wealth, none of which can I take with me when I leave this world. Four only have I spent in doing good to my fellow man. And shall I count these years that have been utterly wasted? Are they not worse than blank, and is not that portion only worthy to be reckoned as a part of my life which has answered life's best end?"

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The Russian Grand Duke.

NEW YORK, Nov. 22.—The steamer *Mary Powell* with the reception committee and about five hundred persons proceeded down the bay at 11 o'clock this forenoon. Broadway was never so crowded with people in holiday attire as this afternoon. About ten thousand troops in line are stretched up from the battery. Buildings are covered with flags, Russian and American. The entire display is magnificent. The Grand Duke landed at 1:30 P. M., after considerable ceremony, amidst the roar of cannon and deafening shouts of welcome, and took a seat in a barouche. He was dressed in the magnificent uniform of a general officer of the Russian army. His staff, the American and Russian Admirals, and other officials followed the barouches. As the Prince passed up Broadway he was loudly cheered by the people at every step, the military which lined Broadway presenting arms and dipping colors, the bands playing and handkerchiefs waving from windows by ladies.

South Carolina Matters.

NEW YORK, Nov. 21.—A *Tribune* dispatch from South Carolina confirms the report of the fraudulent issue of South Carolina bonds. The Governor charges the Treasurer with a fraudulent issue of bonds, or rather of reissuing bonds which had already been converted into new bonds. The State Treasurer denies this, and says the Governor is misinformed. The result of the matter is that the State Treasury is empty and the credit of the State below par.

In the Court of General Sessions this morning Judge Bedford reconvened the grand jury and charged them on frauds against the city. He suggested that they send for Charles O'Conor to assist them.

WASHINGTON CITY.

The questions were of fact to be decided by an array of documentary evidence, and the verdict and judgment were for defendants below. They are affirmed by this Court. Justice Davis delivered the opinion.

Cole's friends appear equally confident that Sargent cannot count the requisite number of votes, and say that the opposition will unite on Cole, or some other man against him, after the preliminary balloting.

BY STATE TELEGRAPH.

Fun at Jacksonville.

JACKSONVILLE, Nov. 21.—This morning about 8 o'clock two young women named Fanny and Hannah Ralls walked into the dining room of the the United States Hotel, in this place, armed with cowhides, and administered an unmerciful castigation to a man named George Tribble, lately arrived from Crescent City. The girls accuse him of testifying falsely against the character of one of them before the Grand Jury, and the act was applauded by every one present.

OUR ROVING COUNTRYMEN.—Americans are eminently becoming a people of travel. They are scouring the globe in all directions, not only as individual excursionists, but in parties of scores and hundreds. They charter steamboats for a point nearest the Holy Land; they burden every line between their own and the European shores; they load every train that crosses the great plains to the American Alps. They travel fast and spend money still more rapidly. Just now there is a great rush of adopted citizens to their old homes. Germans and Frenchmen are besieging the State Department for passports to visit their surviving friends, and the scenes of the late conflict. Never before in the history of the country have so many been granted as during the present year. The effect of this mingling of native born Americans with the people of other countries, and of the naturalized citizen with his brethren at home, must be advantageous in the highest degree. It kills prejudices, enlarges the individual mind, disseminates accurate knowledge, and widens the brotherhood of man, and a nation of travelers becomes a nation of gentlemen, in the highest sense of the word.

A sick man was once told that his wife would probably marry again. "All right," said he, "for there will be one man to lament my death."

Democratic Overthrow in New York.

The New York *Herald* in an article on the election in that State and its results has this paragraph:

> New York, the strong citadel, the magazine of supplies and base of operations of the Democratic party for the Presidential succession, is lost and turned against them. What are they going to do about it? What can they do? Their "new departure" has proved a snare and a delusion, and Tammany has fought their battle of Sedan. Gen. Grant looms up into bolder relief than ever as master of the political field, and Mr. Greeley as a subsoil Presidential candidate becomes almost invisible to the naked eye. There is, from present indications, hardly the ghost of a chance for the Democratic party next year. They are an army without Generals and Generals without an army. Routed and demoralized in the North they are divided in the South. With nothing but the Governor of New Jersey to swear by in the East, they have hardly a local habitation or a name in the Great West. Their perplexed leaders are debating still another new departure—the getting up of an independent Republican ticket and the concentration of the whole Democratic party, with all the loose materials of the country, in its support.

Still Another Remarkable Cure.

A PATIENT GAINS 15½ POUNDS AND RECOVERS HIS HEALTH IN FOUR WEEKS TIME UNDER THE SKILLFUL TREATMENT OF DR. ABORN.

This is to certify that I have been afflicted for three years, and that I kept declining slowly until the latter part of last May, when I was taken down suddenly, since which time, as before, I could get no relief. My disease baffled the skill of every attempt, and only left me weaker, until death would have been a relief at many times. Four weeks ago to-night I placed myself under the care of Dr. Aborn, whose treatment gave me immediate relief, and I continued to gain so rapidly until now, after using his medicines only four weeks, I have gained fifteen and one-half pounds, and feel like a new man.

Yours truly, JAMES H. OGLESBY.

ANOTHER REMARKABLE CURE
OF A
CHRONIC DISEASE OF THE
THROAT, LUNGS & HEART.

I wish to say to the public that I have been troubled with a disease in my chest, lungs and heart for the last five years, and have been treated by doctors in San Francisco and Oregon, but found no such relief as I have found since I commenced taking Dr. Aborn's medicines, which has only been about four weeks, and I have gained nine pounds—in fact, I feel almost like a new man. I commenced improving from the very first day, and have continued to improve ever since. Futhermore, I would say, that the Doctor's treatment is entirely different from any that I had ever taken before. I would say to all that are afflicted to give the Doctor a call, as they will find his charges reasonable and his medicines magical in their effects.

MORE WONDERFUL CURES OF DISEASES OF THE EYE.

PORTLAND, OREGON, October 21st, 1871.

I have been very bad with sore eyes; they were highly inflamed, so that I could see nothing out of the left eye. I had been in the army, and was under the care of a military doctor for three months and he could do nothing for me; finally I got discharged on account of my eye. I then came to Portland, and I heard of the good reputation Doctor Aborn had in Portland, and I went under his treatment for three weeks, and now, thank God, I am cured and able to resume business. I had suffered considerably before I went under his treatment.

I have resided in the Umpqua Valley, Douglas county, Oregon, for about twenty years.

The Daily Oregonian.

TUESDAY MORNING, NOV. 21, 1871.

The State and the Railroads.

Of course the principle of railroad consolidation is unavoidable. The growth of the corporate power cannot be prevented. The railroad is now a necessity. Upon it depend the flow of business, the movements of population and many other wide interests. Its relation to the State is made the subject of an article in the last number of the *New Englander* by Dr. Bacon, of New Haven, in which the principle is stated that the railroad has become "a public institution, to be managed for the public under a strict responsibility to the State." Not that it can be arbitrarily seized or meddled with, but that it is the right of the State to prevent it from abusing its trusts and oppressing the people. The relations of government to railway corporations are now being much discussed. But the question is a new one. Railroads are a comparatively new thing. Just the part they played in our civilization and social economy has not been settled. Hence, as the article in the *New Englander* observes, any attempt at correction or prevention of the evils experienced or anticipated from them must be tentative and preparatory. For them must be built up as it were an entirely new system of principles. The old maxims and rules are found wanting. So far it has been found that the system of voluntary association of capital is to be the one on which railroads are to be built. The government, our form of government especially, is not competent for such large moneyed undertakings. Rotation in office and the party-wise distribution of patronage would render impossible any wise and consistent management of the roads if the State controlled them. Another fact which experience has taught us is that consolidation or union in some form is to be expected. It is demanded by commerce and travel, as well as by the best interests of the roads themselves. It is a tendency which has had full [illegible] all over the country. All [illegible] must at last be removed. So [illegible] has the [illegible] for railroads become, and so important to [illegible] management is a full untrammelled competition, that no unnecessary or vexatious obstacles should be thrown in the way of their construction. But the railroad is also subject to the same great rule of equity. As the owner of land must give way for the railroads, yielding his rights in his land for the sake of the public interest, so the railroad must be controlled and managed in a way to promote the general good, and the State has a right to see that this is done.

A Steam Plow.

The Marysville (Cal.) *Appeal* gives an interesting account of the successful operation of Hyde's steam plow, a machine which has gained much celebrity as the nearest approach to a perfect steam plow yet made. In the instance spoken of by the *Appeal*, the machine was tried on tule lands which were covered with a dense growth of heavy, tough flags, with the roots and bulbs so matted together that an ordinary plow could accomplish nothing at all. But this steam plow did the work handsomely and well—its several furrows aggregating a width of six feet, and going to an average depth of seven inches. The weight of the whole machine is twelve tons, but for ordinary plowing a much lighter one is practicable. The construction of the plows or cutters is peculiar. From the rear of the steam wagon are projected "six arms, to the extremity of each of which is attached a cutter, resembling exactly the wheel of a propeller, having six blades with curves, very similar to propeller blades. These wheels and arms, although operated together, act upon the earth and perform their work independently of each other, so that in case of a depression or rise in the earth in the track of either, only that wheel will be affected by the object. The wheels are guided on the ground by a curved iron slide that slides over the earth's surface, thus regulating the depth at which the wheels shall cut." It will be seen from the description that the machine not only plows the ground but breaks and pulverizes it, so that the soil is left as if it had been under the operation both of plow and harrow. Such a machine as this can be made to plow twenty-five acres a day. California papers regard the invention as one of the greatest importance, and predict that it will create a revolution in the methods of farming. Certainly nothing is more wanted than a good, thorough steam plow; and if this machine will answer the purpose, and can be furnished at moderate cost, it will prove one of the most useful of modern inventions, and can no more be dispensed with after it is once introduced than Whitney's cotton gin.

It seems really to have come to this, that the President of the United States cannot invest his means in any direction whatever without becoming liable to partisan aspersions and charges of corruption. Long before he was elected to the Presidency General Grant purchased stock in the Seneca Stone Company, and which he has held until now, although not receiving a dollar of revenue from it. Some time ago contracts were made with the company to furnish stone for some Government work, whereupon the partisan press broke out into fierce assaults upon the Executive, charging him with being concerned in "jobs," and interested improperly in the contracts in question. To put an end to this sort of thing, the President has now ordered his stock to be sold, thus affording those who have been impugning his motives in the possession of it to step forward and purchase it, and so get the benefit of his "unwarrantable speculation."

Gen. Sheridan has made a report of his course at Chicago, which is expressly approved by Gen. Sherman, and has been sent to the War office. The latter's indorsement on the report is as follows: "The extraordinary circumstances attending the great fire in Chicago made it eminently proper that General Sheridan should exercise the influence, authority and power he did on the universal appeal of a ruined or distressed people, backed by the civil agents who were powerless for good. The very moment that the civil authorities felt able to resume their functions, Gen. Sheridan ceased to exercise authority and the United States troops returned to their respective stations. Gen. Sheridan's course is fully approved."

The Chicago *Post* has this neat bit: "A meeting of Democrats in San Francisco recently passed a resolution requesting Congress to arrange for an amendment to the treaty with China, so as to prevent the immigration of the Celestials into these United States. If Secretary Fish can negotiate this treaty, and include in it a clause providing for the emigration hence to China of that class of Democrats, he will have the satisfaction of pleasing everybody, and of avenging the Tien-Tsin massacres."

Official Statements of the Debt.

The statements emanating from the Treasury Department are contradictory, and therefore not reliable; and in the midst of so much confusion it is difficult to arrive at precision; but if there is a want of accuracy, it is our Federal officials who are at fault, not we.—*Herald.*

This is said in reference to the monthly statements of the public debt. The difficulty experienced by the *Herald* arises from the fact that it does not quote from the official monthly statements, but takes confused jumbles of figures from unreliable sources and increases their confusion by its own presentation of them. Mr. Boutwell's monthly statements are models of system, accuracy and clearness. They are issued on printed cards, about twelve by twenty inches in size, and present an admirable classification of the various sorts of bonds and securities that go to make up the debt. No one who examines this card can be misled by it, or fail to understand at once its orderly and lucid arrangement. Large numbers of these are printed each month and sent to the principal newspapers, the banks and various Government offices throughout the country. If the *Herald* would quote from these official statements, instead of taking corrupt statements from second-hand sources, it would have no occasion to complain of any want of clearness or accuracy in the monthly and yearly exhibits of the debt.

The *Herald* assumes that there is an error of a figure in a telegraphic statement regarding the public debt published in the OREGONIAN of April 3d, 1869, and has a column article thereon. This is much ado about a trifle. That paper assumes that because it published the dispatch differently from us, we were sadly in the wrong and purposely altered the telegram. It does not stop to think that we might insist with equal force that our figures were right and its wrong, and that the fault of "altering the dispatches" lies at its own door. But this matter is too trifling for us to waste space upon. We leave to the *Herald* the business of writing exhaustive leaders on the difference of a figure in telegraphic statements published three years ago, when it doesn't matter a button whether the telegraph reported "$2,500,000," or "$25,000,000."

TUESDAY MORNING, NOV. 21, 1871.

CITY.

THE QUESTION OF GOOD BEEF.—As winter comes on the annual anxiety about good fat beef begins to agitate the common mind. We pay enough per pound the year round to pay the butchers amply for giving us the very best of stall fed during the winter months; but we rarely get any after the middle of December but the genuine "blue steak." Butchers generally plead that fat beef cannot be had, and for several years the fault has been attributed to the short grass of the Wallamet Valley. We are happy to know that sufficient attention has lately been given to the raising of stock in Eastern Oregon and Washington to enable butchers now to buy fat cattle the year round if they only will. We are further glad to know that competition in this market will soon compel the butchers to furnish their stalls with fat meats, or retire from business in favor of men who will do it. We met a couple of gentlemen last evening—Messrs. Breyman and Brown—just down from the Yakima Valley. Mr. Breyman is engaged in stock raising, and Mr. Brown has been buying large numbers of beef steers, and will soon commence bringing them to this market. The gentlemen represent the cattle of Eastern Washington as being in splendid condition. The Yakima Valley had just had three or four days of heavy rains, and farmers and stock breeders are in high spirits, as the rains will not only enable farmers to sow grain but will ensure a good crop of grass feed through the winter.

MADE A "RISE."—We heard of a case yesterday which illustrates the ease with which men have made and are still making money on real estate in Oregon. A man came out from Illinois with a little over three thousand dollars—the earnings, savings and scrapings of a life half spent. Arriving here some two or three years ago, he invested $3,000 in a farm a short distance from East Portland. When he had done that, all the neighbors said he had gone and done it, had, in short, put his money where he never would see it again. Time, however, wore on and land kept rising in value, just as everybody said it wouldn't, and the other day our Illinoisan sold his patch for *seven thousand eight hundred dollars*, coin. He thinks Oregon is a great country. In half a lifetime he had never made so much clear money in Illinois as he got here by just waiting two ye[illegible]

MR. REED'S IMPORTED STOCK.—The steamer *Oriflamme* arrived early yesterday morning, having on board the thoroughbred stock imported by Mr. S. G. Reed, of this city. The stock was taken off the vessel and driven away early in the forenoon, but not without attracting a great crowd of spectators and admirers. Mr. Reed has had excellent luck with this lot of stock, bringing them across the continent by rail and from San Francisco to Portland by steamer, without loss or serious injury to any of them. We hear stock men speak in the highest terms of the cattle and sheep. As was stated in our account of them yesterday morning—republished from the *Alta*—they are nearly all winners of one or more prizes, and some of them have taken as many as six. As soon as practicable they are, we learn, to be taken to Mr. Reed's farm in Yamhill county.

AMUSEMENTS.—The Panorama of the Apocalypse supposed to be a representation of the wonderful things that St. John saw in his dreams—is to be exhibited at Oro Fino Theater Thursday, Friday and Saturday evenings of this week. If the picture is as vivid and terrible on canvas as is the language of the revelator, it might be worth while for all the sinners to go and take a glimpse of their future abode, and the style of animals with which they will be compelled to associate.

UNDER STATED.—Speaking of the number of buildings lately commenced, in Holladay's Addition, we put the number yesterday at four, beside the hotel, the Congregational church and Mr. Cunningham's residence. Mr. Goodnough informed us yesterday that there are six foundations begun. The excavation for the hotel is nearly completed and workmen are already engaged in framing the timbers. The frame will be up in a few days and the structure will be completed as rapidly as possible.

A SAD ERRAND, INDEED.—Mrs. W. T. Atkeson, a daughter of Mr. F. G. Schwatka, of Salem, arrived at this city last evening, having in charge the remains of her husband, W. T. Atkeson, and two children, who died in Eastern Oregon. Mr. Atkeson died last September at Eagle Creek. The remains will be taken to Salem, the former home of the family, by this afternoon train, and will be buried by the Masonic fraternity on Thursday afternoon.

FOSTER'S TRIAL.—The trial of Foster for seduction was commenced yesterday afternoon. Two or three of the witnesses for the prosecution were examined, when the further hearing was adjourned till to-day. As a matter of course the court room was filled with spectators, each to hear the story of the poor girl's wrongs. Prurient tastes in this case stand a fair chance to be gratified.

BURIALS.—We learn from the sexton of the Lone Fir Cemetery, that the whole number of interments in that burial place this year has been eighty-five. Last year for the same time the interments numbered sixty-two, and yet the present has not been more unhealthy than last year. The greater number of deaths is probably very nearly in proportion to the increase of population.

LIBERAL DONATION.—The citizens of Forest Grove have contributed three hundred dollars to the Michigan and Wisconsin relief fund, the money to be forwarded by Mayor Wasserman. Considering the population of that little burg, this donation is among the most munificent yet made by any Oregon town.

SOMETHING NEW.—By the steamer *Oriflamme* Messrs. Bancroft & Morse, in the Postoffice Block, received several copies of the first number of Frank Leslie's *Lady's Journal*, devoted to fashion and choice literature. It is in every respect superior to anything of the kind in its line we have yet seen.

MORE IMMIGRANTS.—The steamer *Oriflamme* brought another considerable detachment of immigrants, among them several families of men who had preceded them and who have homes prepared for their reception. A considerable number of them went up the valley by the afternoon train yesterday.

JUVENILE FAIR.—The children's Fair at the Taylor Street Church this evening is to create a fund for the relief of the *sufferers* of Portland, and is prompted by a desire to educate the children in ways of benevolence as well as to afford relief to the destitute. They are fixing for a good time.

DONATIONS.—Persons desiring to make donations of fancy goods, edibles, or other articles for the St. Vincent Hospital Fair, are requested to forward them to Armory Hall any time during Thursday when a committee will be in attendance to receive them.

SPIRITUAL MOVEMENT.—The spirit of the street cleaner was moving yesterday upon the face of the vasty deeps of mud accumulated upon the street crossings, much to the encouragement and gratification of pedestrians.

FROM ASTORIA.—We learn through officers of the *Dixie Thompson* from Astoria yesterday that thick and heavy weather is prevailing off the bar. A vessel, not made out, was seen off the bar on Monday.

STEAMERS TO SAIL.—The steamship *Oriflamme* is expected to sail for San Francisco at 7 o'clock this afternoon. The *John L. Stephens* will sail on Saturday, if her repairs shall be then completed.

GOOD TEMPLARS FESTIVAL.—The Good Templars of this city have issued tickets of invitation to a festival to be held at their hall in Carter's building next Friday evening, November 24th.

A NEW POSTOFFICE.—A new postoffice has been established at Hubbard's station—the first station above Aurora, on the Oregon and California Railroad.

MESSAGE NOT CALLED FOR.—There is a message in the Western Union telegraph office for Scott Campbell.

STILL INDISPOSED.—Judge Deady was still unable, yesterday, to attend the U. S. District Court.

Work of every description in the house finishing line will be done at short notice to the best of satisfaction.

REAL ESTATE TO BE SOLD.—Mr. A. B. Richardson will hold a sale of real estate, at 10 o'clock to-day, at his auction rooms.

As S. L. Stone is closing out at cost his fancy goods, toys and willow ware, this is the last chance to buy cheap.

Kris Kringle's headquarters is at S. L. Stone's, next door to the Postoffice.

S. L. Stone is giving more toys and fancy goods for six bits than any house in town does for one dollar.

Boss Tweed and others of the Tammany Ring have been stirred up very lively of late, but that is nothing compared with the excitement caused by Kohn & Fisbel, who have stocked their large clothing establishment, No. 91 Front street, with goods for winter wear to suit all classes, not only in style but in price. Seeing is believing, so go and examine their stock.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. M. O. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven *superior* to any method we have ever known. And that although the *first cost* may be a trifle greater than some others, we believe it to be in the aggregate *much* cheaper, beside being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before incurring any expense, we give a cordial invitation to call at our homes and interview her pupils.

It is perfectly non-explosive. The light is better than is produced by any other lamp. I believe it to be true economy in view of the safety, the quality and quantity of the light produced, and the durability of this lamp, to throw away all other kinds and use this only.

"I know it to be by far the best light we have ever used in our family. I know of nothing that can compare with it. I prefer it to any gas burner I have ever seen. For safety, for economy, and for the perfection of the light, it deserves to come into universal use.

Arrest Decay.

When a plant or a tree begins to decay it must needs die. It cannot be revitalized. But it is not so with human beings. A human ruin can be repaired, strengthened, restored, though a brown leaf or a withered blade of grass can never be made green again. In the autumn of life, or even in its winter, when nature seems to be giving away under the pressure of years, it is still possible to retard the progress of decay, and to lend to age more than its wonted vigor. As a means of promoting this object, Hostetter's Stomach Bitters is unquestionably the most potent of all restoratives. It will not make the old young, but it will prevent, lessen, or sooth the infirmaties which are the usual accompaniments of the decline of life. For debility and lack of nervous power, from whatever cause arising, it is the medicine that of all others before the world, best deserves the name of a *specific*. In purity, in invigorating properties, in its adaptation to weak stomachs and feeble organizations, it has no competitor among the tonics of the pharmacopoeia, nor among proprietary remedies. Besides its strengthening principle, it possesses regulating properties of the highest order, and as an anti-bilious medicine is far preferable to any of the preparations containing mercury. Time has shown that for physical decay, nervous debility, dyspepsia, billious disorders, and intermittent fever, Hostetter's Bitters is a remedy without a rival. This is the season of the fall of the leaf; let it remind the old, the feeble, the sickly, to invigorate and regulate their systems with this great vegetable tonic and alterative.

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!

ASSETS .... $17 000,000!

ISSUED 9,925 POLICIES IN 1870,
Insuring Over $27,000,000!

WM. H. BEERS, MORRIS FRANKLIN,
Vice President and Actuary. President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1846. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies; and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

ÆTNA
LIFE INSURANCE COMPANY,
OF HARTFORD, CONN.
FOUNDED IN THE YEAR 1820.
Adopted Mutual System in the year 1861.

ACCUMULATED CAPITAL OVER	$15,000,000.
ITS ANNUAL INCOME OVER	6,000,000.
WHOLE NUMBER OF POLICIES ISSUED TO DATE, NEARLY	100,000.
NUMBER OF POLICIES ISSUED IN 1870	11,217.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!
IN INCOME, IN ASSETS, IN NUMBER OF POLICIES, IN AMOUNT INSURED, IN SOLIDITY AND STRENGTH, IN SOUNDNESS, CHEAPNESS, PROMPTNESS AND SUCCESS.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the *Ætna*:—"No Life Insurance Company ever achieved so complete a success as this popular institution." "Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all liabilities; and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

FINANCE AND COMMERCE.

TUESDAY EVENING, Nov 21, 1871

Gold in New York—111.

Portland Legal Tender quotations 89½c buying, and 90½c selling.

The following are the latest telegraphic quotations to the San Francisco papers:

NEW YORK, Nov. 16.—Gold, 111½; sterling 108½@109½. U. S. 5-20s, 1862, 111; 1867, 114½; Pacific M. S. S. Co., 47; Wheat, $1 75@1 85; Flour, $7@ [illegible] Cotton, 18½c; [illegible] Dry, 27@27½c; Salted, 11@11½c; Oil—Sperm, market unsettled; Whale market unsettled; Wool—Spring, fine, 34@40c; pulled, 28@50c; burry, 28@33c; Wool—Fall clip, 28@30c; burry, 20@25c.

The Bank of England on Nov 16th reduced rates to 4 per cent.

The steamer *Oriflamme* arrived early this morning with passengers and a cargo of assorted merchandise from San Francisco.

We are in receipt of the following important circular, under date of Nov 16th, 1871, at Victoria, B C, signed by J. W. Trutch, for the Minister of Marine and Fisheries:

NOTICE TO MARINERS.—It is hereby publicly notified that the Light-ship at the mouth of Fraser river having been seriously injured by the late gales, has been removed for repairs, and will not be in position again for sometime. Due notice will be given of the date on which the light will be relit.

Manila dates to September 25th quote Flour at $12, which is an advance of $1; Coffee, $14, an advance of 50c; Cordage, $16; Cossipore Sugar, $6 87½ ₩ picul. The *Mogul* sailed for San Francisco on the 21st of September, with 20,400 piculs Sugar, and 100,000,000 Cigars. She [illegible] put into Hongkong in distress.

Japan advices of October 23d state that the Tea market was quiet at the following rates:

Common Teas, $19@22 ₩ picul; good common $23@25; medium, $[illegible]; good medium, $31@35; fine, $35@40; finest, $4[illegible]; choice, $[illegible] ₩ picul.

Hongkong dates to October 11th give the following quotations:

California Flour, $7a7 50 ₩ bbl in wood; $3 50a3 60 for ½ sks, and $1 75a1 80 for ¼ sks. Black Pepper, $12 [illegible]; Cloves, $8 50a8 [illegible]; Cassia, [illegible]; Nut Oil, $9 00; prepared Opium, $900a905; No. 1 China Rice, $4 80a4 85; No. 2, $3 70a3 80.

The *Mary Belle Roberts* left Hongkong for San Francisco with the following cargo: 10,630 mats Rice; 225 pkgs Tea; 130 cs China Nut Oil; 100 slabs Banca Tin, and 100 bags White Beans.

From the San Francisco *Commercial Herald* of Nov 17th we obtain the following:

There has been quite a speculative movement in Pig Iron during the week, resulting in the concentration of about 1,500 tons of Scotch and English No 1, purchased in lots at $[illegible]@40, and now held at $42 50, which will be about the cost of future importations at current rates of freight. It is said that sales have already been made at $42 50. At the close 500 tons No 1 Scotch Pig Iron sold at $42 to foundrymen, 60 days, and the price now advanced to $43.

There is still a speculative movement in cask Claret, at present [illegible] casks Bordeaux at $36 50@38 50 for medium [illegible] Case Claret is also in favor [illegible] other imports there is little doing [illegible] of Champagne is quite neglected. [illegible] both White and Red continue in active request, both in bulk and glass; prices as heretofore.

Imports of Candles from [illegible] to Nov. 16th [illegible] overland [illegible] a very light [illegible] by rail and via Panama steamer [illegible] prompt sale upon arrival at established rates. No large [illegible] and [illegible] disposition manifested to stock up.

Imports of Coffee from January 1st to Nov 16th: Rio, lbs [illegible]; Java, lbs 424,903, sks [illegible]; Manila, lbs 962,172, sks [illegible]; Hawaiian, lbs 82 154; Central American, lbs [illegible], 168 pkgs 485; Tahitian, lbs 13,418, sks 80; San Domingo, lbs 9 790; Mocha, lbs 1,650. There is but little [illegible] in the hands of importers; jobbers carrying fair stocks prefer to sell out rather than add to their supplies. The late rapid advance [illegible] not seem to have been altogether [illegible] and [illegible] a cessation in the St. Louis trade demand and supply [illegible]. [illegible] the last few months we have sent East by rail chiefly to St. [illegible], 1,000 [illegible] to Central America.

The steamer *Oriflamme* will leave on Thursday for San Francisco carrying both passengers and freight. The steamer *John L. Stephens* it is thought will get away on Saturday. The steamer *California* when last heard from had left Victoria for Bellingham Bay and this port.

There are now due at this port [illegible] with Railroad Iron, upon the arrival of either or all track laying on the Oregon and California Railroad will be resumed, and both passenger and freight trains will be running to Oakland soon after, or within 30 days from the receipt of the iron. The Umpqua valley trade has heretofore come to San Francisco via Scottsburg, but by judicious management all of it can be concentrated here. Sometime since we made mention of a large firm in the Umpqua valley heretofore purchasing in the San Francisco market, buying very heavily here and shipping the same to destination via Eugene City. This is only an admission of what can be accomplished with the completion of the railroad. The Umpqua valley, so we were informed when coming through it, is settling up very rapidly with [illegible] and others. Heretofore, like other portions of Oregon, but little attention has been given to cultivating the soil owing to the difficulty of marketing the grain and consequently more attention was paid to stock raising, but with the certainty of an outlet for their Grain by the early completion of the railroad, will it is thought by those capable of forming an estimate, cause the land to be sown in Wheat and Oats to an extent not less than double that of last year, which was an increase on former years and with the railroad penetrating still further into the valley cause a still further increased [illegible] for the seasons of 1872 and 1873. The trade of the Umpqua valley has always been considered by San Francisco merchants as very healthy, and the high prices [illegible] by the Wool growers of that valley for their product, and the high prices for Hay, Oats, and other feed received by farmers from the railroad contractors this year, will give traders there a still better standing. The amount of the trade of the valley we are unable to give, but to judge from the number and size of the stores we should say it was no inconsiderable amount, well worth looking after by our merchants.

Produce Market.

WHEAT—Our San Francisco exchanges give us information of the Bank of England lowering the rate of interest 1 ₩ c. It is altogether likely that is the principal cause of the late advance in our Liverpool quotations. Private telegrams to shippers in San Francisco does not give Liverpool quotations at over 12s 10d, although the public dispatches are 13s. We quote market at $2 [illegible] per cental sacked and delivered.

FLOUR—Advices from San Francisco give a dull market with [illegible] made on outside brands. The shipment to China still continued at last mail advices. We quote market at $7 50 ₩ bbl for extra and $6 50@7 ₩ bbl for superfine and outside brands of extra.

OATS—The bark [illegible] has [illegible] 200 sks and the Windward 100 tons all for this market. Our trade will take all of this and more too, as the consumption has increased and the yield, owing to failure of crop, is less than any previous year. We quote market at $2 45@2 55 per cental.

POTATOES—The trade takes all choice California and Oregon at $1 [illegible] ₩ 100lbs. Ex *Oriflamme* and *John L Stephens* [illegible].

WOOL—The *Commercial Herald* says: The movement during the week has been of considerable moment, aggregating 500,000 lbs. Shipments East, by rail, include divers parcels bought some time since, at Red Bluff and other interior places at high figures. The price paid for good clean merchantable lots, [illegible]@75c; good to choice Fleece, [illegible]; extra choice, 30@33c. Burry and inferior plentiful, and hard to sell at 16c.

General Merchandise.

DRY GOODS AND CLOTHING—Advices from San Francisco report [illegible] for the season good stocks and prices considerably advanced, to cover increased freights by rail—Cottons being decidedly higher.

SOAP—San Francisco advices say there is a better demand for No. 1 Castile, owing to diminished stock and light imports en route, and also a better tone in the market for local brands of common, owing to increased price of Tallow and Rosin. It is hardly likely that any movement of any note will take place owing to the strong competition in that market. Messrs. R. Irvine & Co., of this city, are on their last run, and if forced to purchase the raw material at prices now ruling will have to advance rates for all made after this run. Market for all brands unchanged from last prices given.

Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, Nov 21.—Flour unchanged.

Wheat—The range for fair to choice is $2 55@2 65. Sales last week of 14,000 [illegible] than reported, was private. This was a fair quality, and realized about $2 45@2 50.

Barley—360 sacks of good feed and two large sales are pending as this report closes.

Oats—1,000 sacks of good to choice, $1 90@2; 2,000 [illegible] good, $1 95.

Hay—Market [illegible].
